**The Literacy Program’s mission is to provide adults in the Greater Plymouth Area the opportunity to develop and improve the life skills and literacy skills needed to achieve personal growth, to further their education, to seek better employment, and to benefit their overall quality of life. We offer free classes for adults (age 16+) who are working towards passing the Hi-SET or GED to obtain a high school equivalency diploma. We also provide tutoring for adults learning English as a second language (ESOL). Our tutors are volunteers from the community who have completed our tutor training program.**
